

## SWP-99

- multichannel indicator with graphic display
- up to 8 inputs 0/4-20 mA
- 2 electronic relay outputs (optoMOS)
- power supply output: 24V DC / 200 mA
- RS-485 / Modbus RTU

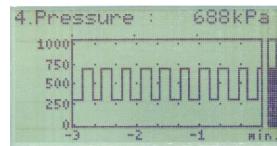

The SWP-99 indicator is intended for measuring and presentation of current values from 8 measuring channels. Each channel can be individually designated (described) with any measuring unit. The LCD graphical display allows for visualization of the values from all 8 channels simultaneously. A significant advantage is possibility of viewing the trends in each measuring channel as the graphs for the last 12 seconds or about 1.5 minutes. Device is equipped in electronic relay outputs that can be used to control external devices. There are icons on the screen signalling the status of the outputs.

- programmable measuring range,
- simultaneous display of values from 8 measuring channels,
- viewing the trends in each of 8 measuring channels,
- any text description possible: name and units,
- data transfer to the master system via RS-485,
- password protected,
- programmable indication filtration.

### An example of what the display looks like

08:13:16	FRI 31.03.2006
1.	Temperat -0.3 °C
2.	Flow 98.9 m3/h
3.	HUMIDITY 14.1 %
4.	Pressure 313 kPa
5.	pH -8.6 2
6.	Redox 85.0 2
7.	Level 13.37 m 1
8.	Current 38.1 A

8-channel view displayed at the same time

the history of the process in time

the current value of the measurement signal  
The height of the digits: 18 mm

### Technical data

**Power supply:** 19V + 50V DC; 16V + 35V AC or 85 + 260VAC/DC

**Power consumption:** typical 7 VA; max. 12 VA

**Display:** with backlighting, graphic LCD, 128 x 64 points

**Measuring inputs:** 2, 4 or 8 inputs 0/4-20 mA, common earthing

**Displayed values range:** ± 9999 + decimal point

**Accuracy:** 0.1% @25°C

**Stability:** 50 ppm/°C

**Digital outputs:** 2 electronic relays, NO type (ER1, ER2) with max. load 24VAC (35V DC) /200 mA, overload protection

**Transducer power supply output:** 24V DC ±5% / max. 200 mA, stabilized, not insulated from measuring inputs

**Communication interface:** RS-485, 8N1 and 8N2, 1200 bit/s + 115200 bit/s, Modbus RTU, galvanically separated

**Operating temperature:** 0°C + 50°C

**Storage temperature:** -10°C + 70°C

**Protection class:** IP 65 (front side when an additional frame is installed); IP 40 (front side); IP 42 (when transparent door with security key type STD-99 is installed; see: accessories); IP 20 (case and connection clips)

**Case:** board

**Case material:** NORYL - GFN2S E1

**Case dimensions:** 96 x 96 x 100 mm

**Panel cut-out dimensions:** 90,5 x 90,5 mm

**Installation depth:** min. 102 mm

**Board thickness:** max. 5 mm

### Accessories

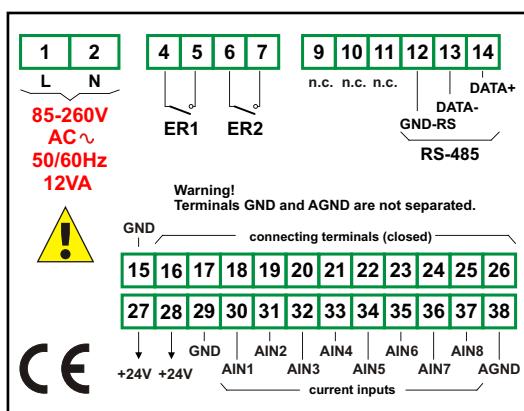

#### STD-99

Transparent door with moulded frame acc. to DIN 43700, lockable with security key.

Door and frame are made by injection moulding thus assuring an exact fit, an optimal choice of a material which is very strong and with no risk of corrosion; perfect seal-protective system IP 42 provided by all-round soft rubber sealing the moulding; door does not swing in or out sideways on opening; door-frame and front-frame can be exchanged.

### Exemplary pin assignment

### Ordering

SWP-99-X128-1-X-XX1

#### options:

- 00 : no options
- 01 : IP 65

#### power supply:

- 3 : 24V AC/DC
- 4 : 85V - 260V AC/DC

#### number of channels:

- 2 : 2 x 0/4-20 mA
- 4 : 4 x 0/4-20 mA
- 8 : 8 x 0/4-20 mA
